SAHARA MOTORS GROUP

The 2026 Toyota Hilux Double Cab Pickup GLXS-V is a 2.4L diesel 4WD, 5-seater automatic truck designed for strong everyday practicality and confident off-road capability, featuring a spacious double-cab interior for passengers, a durable work-ready build, and automatic transmission for comfortable driving in both city and rough conditions, making it a versatile choice for families, jobs, and weekend adventures.

The engine is a 2.4L, 4-cylinder diesel D-4D turbo setup, delivering a maximum output of 147 hp at 3400 rpm and maximum torque of 400 Nm available in the 1600–2000 rpm range, which helps provide strong pulling power for everyday driving as well as demanding roads. This powertrain is matched with a 6-speed automatic transmission for smoother shifts and easier driving convenience, while the four-wheel drive (4x4) system gives extra traction and control on rough, wet, or uneven terrain. For long-distance capability, the vehicle comes with an 80L fuel tank, and the provided fuel economy is 14.1 km/L. In terms of practicality and space, the overall dimensions (L–W–H) are 5325–1855–1815 mm, and it is designed to seat 5 passengers (including the driver). The truck rides on 17-inch alloy wheels fitted with 265/65R17 tyres, balancing comfort, grip, and durability for both on-road and off-road use.

This Hilux GLXS-V is equipped with practical exterior features such as mud guards (front and rear), a front steel bumper, LED headlamps, LED front fog lamps, and LED rear lamps, along with a stop lamp on the deck door and power side mirrors with turn signal indicators. For ride and durability, it uses a rear suspension with leaf springs and includes fabric seats, automatic climate control, an overhead console, and front separate seats with front cup holders for everyday comfort. Connectivity and convenience are supported by a steering wheel mounted control, a 4.2-inch multi-information display, one-touch power windows for all doors, a front passenger door lock, and a sliding back window. For entertainment and smart features, it features a Connected Display Audio (C-DA) touchscreen 8-inch system with Apple CarPlay, DAB (Digital Audio Broadcasting) radio, and a USB-A port, along with 4 speakers and drive mode select (ECO/PWR). Safety and driver-assistance include cruise control, a rear camera, front and rear parking sensors, and an off-road-ready rear differential lock, plus multiple airbags (driver & front passenger + knee airbag for the driver). The braking and stability systems include ABS, EBD, Vehicle Stability Control (VSC), and Hill-Start Assist Control (HAC), together with a Tire Pressure Warning System (TPWS), ensuring better control in varied conditions. The vehicle also features interior styling details like side stripes and wood panels, and it benefits from its rear suspension (leaf spring) setup for dependable load handling.
