SAHARA MOTORS GROUP

The 2026 model of the Toyota Land Cruiser 79 Single Cab stands out as a powerful and reliable choice for those seeking a rugged vehicle that can handle tough terrains and heavy loads. With its robust 2.8L diesel engine, the GDJ79L-TJMRYV model delivers impressive performance, boasting a net horsepower of 201 at 3000-3400 RPM and a torque of 51 KGM at 1600-2800 RPM. This 4-cylinder, DOHC engine operates on a common rail fuel system, ensuring efficiency and durability. The generous fuel tank capacity of 90 liters (plus an additional 90 liters) allows for extended journeys without frequent refueling, making it ideal for both work and adventure.

Equipped with a 5-speed manual transmission and part-time 4WD options, the Land Cruiser 79 is designed for versatility. Whether navigating urban streets or tackling off-road challenges, this vehicle excels in maneuverability and control. The sturdy frame is complemented by high-performance suspension systems, including heavy-duty coil springs in the front and leaf springs in the rear. With features like ABS, VSC, and brake assist, drivers can feel confident in their safety and handling, even in demanding conditions. The vehicle's dimensions—5235 mm in length, 1800 mm in width, and 1970 mm in height—provide ample space for cargo and comfort.

Inside the cabin, the focus on practicality continues with seating for three and a range of features designed for convenience. The fabric seats, combined with amenities such as air conditioning and a digital clock, create a comfortable driving experience. Additionally, the interior wood paneling adds a touch of sophistication. Safety features, including dual airbags and a tire pressure monitoring system, ensure peace of mind for both driver and passengers. With a gross vehicle weight of 3300 kg and a kerb weight of 2300 kg, the Land Cruiser 79 is built to handle heavy loads while delivering exceptional performance on and off the road. Whether for work or play, this vehicle embodies strength and reliability, making it a top choice for those who demand more from their vehicles.

A close-up photograph of a car's center console. The console is made of a light-colored, textured plastic. It features several buttons: two large rectangular buttons at the top, and a cluster of three buttons below them. The leftmost button in this cluster is labeled 'IDLE UP' with a small icon of a car engine. A red arrow points from the text 'IDLE UP BUTTON' to this button. To the right of the buttons is a gear shift lever with a black knob. In the background, parts of the steering wheel and the instrument cluster are visible.
