FOREX MOTORS FZCO

The 2024 Mitsubishi L200 Sportero Double Cab Pickup is a robust and versatile vehicle designed for confident performance across urban roads and demanding off-road conditions. Powered by a 2.4L diesel engine with an automatic transmission, it delivers dependable capability, smooth control, and reliable traction. Its Super Select 4WD-II system enhances confidence across varied terrains, while the double-cab configuration offers practical passenger space and useful cargo capacity. The Sportero combines durable construction, modern equipment, and advanced safety features for everyday usability, work-focused driving, and long-distance journeys with comfort and confidence. Its practical design supports versatile driving needs.

The Mitsubishi L200 Sportero features a Super Select 4WD-II drivetrain with a front double-wishbone suspension using coil springs and a rear elliptic leaf spring suspension for stability and durability. A rear differential lock improves traction over challenging surfaces, while Hill Descent Control supports controlled movement on steep descents. The vehicle is equipped with 18-inch silver alloy wheels and 265/60R18 all-season tyres, including a matching alloy spare wheel. A 75-liter fuel tank provides practical range, while the durable chassis is suitable for demanding applications, heavy-duty work, off-road travel, rugged routes, and varied driving conditions across urban areas and remote terrain.

Inside, the Mitsubishi L200 Sportero provides a comfortable and technology-focused cabin with leather seats and a driver's power seat offering sliding, reclining, and height adjustment. Dual-zone automatic air conditioning and a rear air circulator help maintain cabin comfort, while the 8-inch smartphone-link display audio system, six speakers with two tweeters, USB power sockets, hands-free voice control, and rear-view camera provide convenient connectivity and functionality. Exterior equipment includes privacy glass, rear fog lamp, automatic lighting control, rain-sensing variable intermittent wipers, and an auto-light system. Keyless operation, engine start switch, cruise control, dimming rear-view mirror, airbags, ISO-FIX, rear tether anchors, and speed-sensing automatic central door locking further enhance convenience, occupant protection, and everyday driving confidence for drivers and passengers on every journey worldwide.
