The 2026 Toyota Tacoma Double Cab TRD Pro i-FORCE MAX is a powerful and adventure-ready pickup designed to combine rugged off-road capability with advanced hybrid performance. Powered by a 2.4-liter turbocharged i-FORCE MAX hybrid powertrain, the Tacoma produces up to 326 HP and 465 lb-ft of torque. Paired with an 8-speed automatic transmission and 4WD, it delivers strong performance and confident control across a variety of driving conditions. Its Double Cab configuration also provides a versatile setup for both passengers and outdoor equipment.

Built for challenging terrain, the Tacoma TRD Pro features a specialized off-road suspension with FOX QS3 adjustable shocks and rear piggyback reservoirs. Its 33-inch Goodyear all-terrain tires and 18-inch TRD Pro alloy wheels provide additional traction and ground clearance for off-road driving. The truck also features Multi-Terrain Select, Crawl Control, and an electronically locking rear differential to help the driver maintain control over difficult surfaces. With its aggressive TRD Pro styling, rugged construction, and advanced off-road systems, the Tacoma has the capability and presence to take on demanding adventures while remaining suitable for everyday driving.

Inside, the 2026 Toyota Tacoma TRD Pro combines practical design with modern technology. Toyota Safety Sense 3.0 adds advanced driver-assistance features designed to support the driver during everyday journeys. The Double Cab layout provides useful passenger space, while the pickup bed adds the practicality needed for carrying equipment and gear. With its combination of hybrid power, 4WD capability, specialized TRD Pro hardware, modern technology, and everyday versatility, the 2026 Toyota Tacoma Double Cab TRD Pro i-FORCE MAX is built for drivers who are ready to go beyond the ordinary.
