FOREX MOTORS FZCO

The 2026 Toyota Coaster High Roof DLX 4.2L Diesel 23-Seater Manual is a commercial bus designed for passenger transport, services, school operations, tourism, hotel shuttles, and daily use. Powered by Toyota's proven 1HZ 4.2L six-cylinder diesel engine, it delivers 129 HP and 29 kg-m of torque. The manual transmission provides dependable control, while double wishbone front suspension and leaf spring rear suspension support stable handling and durability. Disc/drum brakes, a 5.625 rear differential, tilt and telescopic steering column, and a 95-liter fuel tank enhance operation and capability.

Inside, the 2026 Toyota Coaster High Roof DLX offers seating for 23 passengers with fabric upholstery and high-back seats designed for comfort. The driver and passenger front seats feature a high-back design, while rear seats include three-point ELR seat belts for protection. The cabin is equipped with a digital clock, PVC sun visors, front seat cup holders, a driver seat-back pocket, rubber floor mat, room lighting, rear heater with two manual controls, clearance lamps, and a two-spoke urethane Toyota steering wheel. An AM/FM Bluetooth and USB audio system with front and rear speakers provides convenient entertainment and connectivity.

The exterior combines styling with equipment suited to export and GCC operating conditions. It features 215/70R17.5 Bridgestone tubeless tyres with 6.00 steel wheels, a spare tyre with anti-theft lock, painted resin bumpers, transport hooks, roof rack without, rear fog lamp, high-mounted stop lamp, green laminated windshield glass, intermittent wipers with washer, side turn signals, rear window defogger with timer, and GCC-specification mud guards. Safety equipment includes SRS airbags for the driver and passenger, three emergency escape hammers, door scuff plates, and rear three-point seat belts, making the Coaster a practical choice for reliable, efficient passenger transportation in demanding conditions.
