The 2026 Toyota Highlander Hybrid Limited-V 2.5L is a refined, seven-seater SUV that combines hybrid efficiency, spacious comfort, advanced technology, and confident all-wheel-drive capability. Powered by a 2.5L four-cylinder DOHC engine with VVT-i, it produces a combined 240 HP and uses an electronically controlled CVT transmission. The AWD system, MacPherson strut front suspension, trailing arm double-wishbone rear suspension, ventilated disc brakes, ABS, VSC, and HAC provide stable control across different road conditions. The Highlander also features EV mode, electric parking brake with hold function, tire pressure monitoring, dynamic radar cruise control, and parking sensors for added confidence during everyday driving and longer journeys.

Inside, the 2026 Toyota Highlander Hybrid Limited-V provides a premium cabin for seven occupants, featuring leather seats, heated front and second-row seating, power-adjustable front seats, and driver memory function. The cabin includes an electronically dimming rear-view mirror, leather steering wheel with control switches, dual-zone automatic climate control, overhead console with conversation mirror, vanity mirrors with lamps, and multiple storage areas. A 12.3-inch TFT multi-information display, eight-inch navigation audio system with six speakers, wireless charger, four USB chargers, and head-up display provide modern connectivity and convenience. Smart entry, push-button start, power windows, electric parking brake, and power back door further enhance everyday practicality and comfort.

The exterior of the 2026 Toyota Highlander Hybrid Limited-V combines sophisticated styling with practical equipment, including 20-inch alloy wheels, 235/55R20 tyres, LED headlights, LED daytime running lights, LED fog lamps, and manual headlamp levelling. Colour-keyed power-folding heated mirrors feature turn signals, blind spot monitoring, puddle lamps, memory function, and panoramic-view camera integration, while the two-tone bumpers, dark-gray rear skid plates, rear spoiler, mud guards, and panoramic roof add distinctive character. Measuring 4966 mm long, 1930 mm wide, and 1755 mm high, with a 2850 mm wheelbase and 203.7 mm ground clearance, the Highlander offers practical dimensions. Safety includes airbags, BSM, panoramic camera, parking sensors, and dynamic radar cruise control.
