FOREX MOTORS FZCO

The 2026 Toyota Camry E+ Hybrid 2.5L is a refined five-seater sedan that combines efficient hybrid performance, comfort, and modern convenience. Powered by a 2.5L four-cylinder engine, it delivers a combined 226 HP and 221 NM of torque from 3600 to 5200 RPM. The E-CVT transmission provides smooth power delivery, while the front-wheel-drive layout, ventilated front disc brakes, rear disc brakes, MacPherson strut front suspension, and multi-link rear suspension contribute to confident handling. With 27.7 km/L fuel efficiency and a 50L fuel tank, the Camry also features a 17-inch alloy wheel setup and efficient hybrid technology for practical everyday driving and comfortable journeys.

Inside, the 2026 Camry E+ Hybrid offers a comfortable and practical cabin for five occupants, with fabric seats, a power-adjustable driver seat, leather steering wheel with audio, telephone, and voice recognition controls. The rear seat features a 60:40 split-folding design with armrest and cupholders. Automatic air conditioning with rear ducts helps maintain cabin comfort, while the 7-inch multi-information display, smart entry and push-button start system, power windows, power door locks, and cruise control add convenience. An 8-inch touchscreen audio system with six speakers, Bluetooth, USB connectivity, and Apple CarPlay keeps passengers connected and entertained during daily journeys.

The exterior of the 2026 Toyota Camry E+ Hybrid combines a modern appearance with practical equipment, including 17-inch alloy wheels, LED headlamps, LED rear lamps with LED and halogen elements, daytime running lights, LED front fog lamps, and an E+ model chrome emblem. Body-coloured power and retractable outside mirrors feature integrated turn signals, while the power moonroof, rear power sunshade, rear view camera, and front and rear parking sensors enhance usability. Wireless smartphone charging, electric parking brake, brake hold function, three-mode integrated driving system, premium horn, trunk liner, carpet floor mats, safety package, and fuel sticker further add convenience. Measuring 4920 mm long, 1840 mm wide, and 1445 mm high, with a 2825 mm wheelbase and 145 mm ground clearance, the Camry is designed for efficient everyday driving.
