2026 **TOYOTA** LAND CRUISER 76 HARDTOP DX V6 4.0L AUTOMATIC TRANSMISSION

FOREX MOTORS FZCO

The 2026 Toyota Land Cruiser 76 Hardtop DX V6 4.0L is a rugged, five-seater SUV that combines off-road capability, durability, performance, and legendary Toyota reliability. Powered by a 4.0L six-cylinder petrol engine with VVT-i, it produces 228 HP at 5200 RPM and 360 Nm of torque at 3800 RPM. The six-speed automatic transmission delivers power, while the four-wheel-drive 4x4 system, front and rear differential locks, coil spring front suspension, six-layer leaf spring rear suspension, ventilated front disc brakes, and rear drum brakes provide confident control. The Land Cruiser also features ABS with EBD, VSC, DAC, HAC, and TPWS for added control on demanding roads and trails.

Inside, the 2026 Toyota Land Cruiser 76 Hardtop DX offers a practical cabin for five occupants, with fabric seats, separate front seats, manual air conditioning, and a leather steering wheel with wood-grain effect. The cabin features a telescopic steering wheel, glove box cooling vent, center console, steering wheel controls, and carpet floor mats. Two USB-C ports, a USB-A port, a 6.7-inch display audio touchscreen, Apple CarPlay, DAB radio, and a four-speaker audio system provide connectivity and entertainment. Power windows, remote central door locking, and rear camera add convenience for regular use. The spacious layout supports comfortable everyday travel and long-distance journeys.

The exterior of the 2026 Toyota Land Cruiser 76 Hardtop DX combines a distinctive rugged appearance with practical equipment, including 16-inch steel wheels, 225/95R16C tyres, a chrome front bumper, halogen headlamps, LED front fog lamps, and headlamp levelling. Power side-view mirrors, side steps, front and rear mud guards, premium horn, and a spare wheel cover enhance its capability and character. Measuring 4970 mm long, 1800 mm wide, and 2180 mm high, with a 2730 mm wheelbase and a 130-litre fuel tank, the Land Cruiser is designed for demanding journeys and challenging terrain. Safety features include airbags, ABS, EBD, VSC, DAC, HAC, TPWS, and an engine immobilizer for added driving confidence. Its robust design suits both urban roads and remote terrain.
